When We Demoralize the Stomach
By excesses or imprudence in cating, we cannot hope to escape the consequences for any great length of time. The most robust digestion must succumb to abuses of that important function. But apposing that we have been foolish enough to enfeable the stomach, is the damage irreparable? By no means. The drappetic has only to do two things to insure his ultimate recovery. First, he should adopt an easily digestible diet. Second, he should use with regularity and persistence licetatier's Stomach Bitters, the leading gustric invigorant of the age. The multiform symptoms of dyspepsia, and the almost invariable attendant disorders, billiousness and constipation, will assured y cause to persecute the rufferer if the above advice is attended to. Another "personal difficulty" result-ing in the shooting of one man by another occurred at Montgomery, Ala., last week. An attempt was made to palliate the crime on the ground that the man who fired the shot was drunk, but the Seima Times, one of the leading papers of the State, pronounces this "a very narrow and restricted view of the crime of homicide." It goes on in this refreshing way: "Whicky is undoubtedly at the Lottom of a great deal of crime, but the free use upon each other of knives, pistols and shotguns by 'Southern gentl-men' soaked in liquor is attributable pri-marily to the false sentiment prevail-in the South that the law is a degrading arbiter of nersonal disputes, and that to act the part of a gentleman you must adminster your own law and blow your opp nent's brains out when he trenches on your ideas of your own self imput-acc.
